GENERAL INFORMATION

PAY ON USE

Should an emergency arise that is not included under your policy the agent can arrange for an approved engineer to attend your home but you will be responsible for all costs involved. The use of this service does not constitute a claim under your policy.

REPLACEMENT OF PARTS OR COMPONENTS

We reserve the right to use replacement parts supplied from third parties in addition to those parts that may be sourced from the manufacturer or their approved suppliers. We are not responsible for any loss, damage or inconvenience resulting from a delay in obtaining or receiving delivery from the relevant supplier of any spares.

When replacement parts are received, we will contact you to arrange a suitable time slot for the engineer to attend. You should make sure that the engineer can get reasonable access to carry out the repair. If we cannot get a replacement part needed to carry out repair our liability will be limited to a temporary repair to make the emergency safe.

If the repair relates to your boiler and the part takes longer than 28 days to source, we will deem your boiler to be Beyond Economical Repair. You may then be eligible for Boiler Replacement Contribution, if this cover level applies to your policy.

ANNUAL BOILER SERVICE

If your policy includes a provision for an annual gas boiler service then this will be shown in your plan schedule. This service is not a part of the insurance contract underwritten by the underwriter and is also not regulated by the Financial Conduct Authority. Complaints relating to the boiler service are therefore not eligible to be referred on to the Financial Ombudsman Service.

Boiler servicing will be completed in accordance with the current Gas Safety Regulations. Please make sure that you have the manufacturer's instructions available for the engineer when they attend. Please note that remedial or maintenance work is not included as part of your boiler service.

Once the agent has received the completed boiler service request form the agent will arrange for an engineer to visit your home to service your gas boiler in line with Gas Safety Regulations. Boiler Services are normally carried out between April and September.

CLAIMS

To ensure an accurate record your telephone conversation may be recorded.

All requests for assistance must be made to the Claims Helpline Service and not to the engineer directly otherwise the work will not be covered.

Provided that the assistance is not precluded by adverse weather conditions, industrial disputes (official or otherwise), failure of the public transport system, including the road and railway network and repairs thereto, and any other circumstances preventing access to the home or otherwise making the provision of the assistance impossible.

There may be times when replacement parts are unavailable, delayed or are no longer available because of circumstances beyond our control. In the event of this occurring we will ensure that your home is safe and if required the engineer will provide you with a quotation for a suitable repair.

Please note that if you should engage the services of an engineer prior to making contact with the Claims Helpline Service any costs that you incur are not covered by this insurance.

Major emergencies which could result in serious damage or damage to life or limb should be immediately advised to the supply company and/or the public emergency services. Gas leaks must be immediately notified to the local gas company.

OBSERVANCE
